

DEPARTMENT OF DIGITAL ECONOMY AND INNOVATION 2027 - 2029 STRATEGIC PLAN

SN	Main Project / Programme	2027		2028		2029		3 Year Total	Departmental Alignment	Expected Impact
		Workstream	Budget Estimate	Workstream	Budget Estimate	Workstream	Budget Estimate			
1	Digital Innovation & Startup Ecosystem Development	Innovation Hub & Startup Support Programme	₦45m	Startup Incubation & Acceleration Programme	₦45m	Scale-up & Technology Commercialisation Programme	₦45m	₦135m	Innovation ecosystem, technology entrepreneurship, startup support and digital economy growth.	Supports technology ventures, innovation capacity, jobs, locally developed solutions and investment readiness.
		Digital Product/Prototype Development Grants		Innovation Challenge & Prototype Fund		Digital Innovation Grant & Pilot Deployment				
		Startup Mentorship, Demo Days & Ecosystem Engagement		Investor/Industry Linkage & Market Access		Startup Investment & Ecosystem Development				
2	Digital Skills, Literacy & Capacity Building for Future Workforce Development	Edo Digital Skills Weekly & Public Service Digital Literacy	₦45m	Advanced Digital & AI Skills Programme	₦45m	Future-of-Work & Emerging Technology Skills	₦45m	₦135m	Digital literacy, workforce development and institutional digital capacity building.	Improves digital competence, productivity, employability and adoption of modern workplace technologies.
		Digital Skills Training for Youth & Job Seekers		Digital Productivity & Office Technology Training		Digital Entrepreneurship & Freelance Skills				
		ICT Capacity Building for Public Institutions		Trainer-of-Trainers & Certification Programme		Statewide Digital Competency Assessment & Certification				
3	MSME Digital Transformation Programme	MSME Digital Readiness Assessment	₦45m	MSME Digital Transformation Clinics	₦45m	Smart MSME & Automation Adoption Programme	₦45m	₦135m	MSME technology adoption, e-commerce, digital payments and digital business transformation.	Improves MSME productivity, market access, competitiveness, digital sales and business data practices.
		Digital Tools & E-Commerce Adoption Support		E-Commerce & Digital Market Access Programme		Digital Export & Online Market Expansion				
		Digital Payments & Online Business Enablement		Business Data & Cybersecurity Support		MSME Technology Innovation Support				

4	Digital Services Platforms Optimisation & Enhancement	Priority Government Platform Optimisation	N45m	Government Digital Platform Modernisation	N45m	Integrated Digital Government Service Expansion	N45m	N135m	Digital public services, e-government platforms, service optimisation and citizen-facing transformation.	Improves service accessibility, reliability, interoperability, efficiency and citizen experience.
		Digital Service Integration & API Enablement		Interoperability & Data Exchange Services		Digital Identity/Verification & Service Enablement				
		Citizen Service Experience & Accessibility Improvements		Digital Service Performance & Analytics		Continuous Improvement & Platform Sustainability				
5	Fibre Optic As-Built Mapping & Broadband Expansion Initiative	Statewide Fibre As-Built Mapping & GIS Inventory	N45m	Priority Broadband Expansion & Connectivity Projects	N45m	Broadband Expansion to Underserved Areas	N45m	N135m	Digital infrastructure, broadband development, fibre-route planning and geospatial infrastructure intelligence.	Creates an accurate fibre inventory, identifies connectivity gaps and supports coordinated broadband expansion.
		Broadband Coverage Gap & Demand Assessment		Fibre Infrastructure Monitoring & Update		Fibre Network Intelligence & Asset Management				
		Fibre Corridor/Right-of-Way Planning		Institutional Connectivity Expansion		Connectivity Performance Monitoring & Planning				
6	Digital Economy Framework Formulation & Implementation	Edo Digital Economy Framework Development	N45m	Framework Implementation & Priority Programme Coordination	N45m	Digital Economy Framework Review & Update	N45m	N135m	Strategic policy, programme coordination, digital economy planning and implementation governance.	Provides a coordinated roadmap, measurable priorities, monitoring mechanisms and sustainable implementation structure.
		Digital Economy Baseline & Sector Mapping		Digital Economy Monitoring & Evaluation		Impact Assessment & Performance Reporting				
		Stakeholder Consultation & Validation		Policy/Regulatory Research & Stakeholder Engagement		Next-Phase Digital Economy Strategy Development				
7	Edo State Application-as-a-Service (AaaS) Custom Data	AaaS Platform Foundation & Core Data-Collection Engine	N30m	AaaS Platform Enhancement & Workflow Builder	N30m	AaaS Scale-up & Reusable Application Library	N30m	N90m	Reusable digital service infrastructure for rapid creation of customised data-	Digitises surveys, inspections, registrations, assessments, inventories and field monitoring while

	Collection	Priority Custom Data-Collection Applications		Cross-MDA/LGA Custom Applications		Advanced Field Data & Monitoring Applications			collection applications across government.	improving data quality and reducing repeated development costs.
		Deployment, Training & Support		Analytics, Dashboards & Data Integration		Platform Governance, Security & Sustainability				
	TOTAL	₦300m			₦300m		₦300m	₦900m
